

What are SATs?

- SATs stands for Standard Assessment Tests. These are national tasks set by the government.
- Children are required to sit these tests when in Y2.
- The tests are just one part of a range of assessments which have been carried out throughout your child's time in KS1.

What subjects do the SATs cover?

The SATs contribute to the teacher's assessment of what level a child is working at, in reading and maths

The Spelling, Punctuaction and Grammar (SPaG) test helps inform the teacher assessment of writing

We will also make a judgement on the level each child is working at in science, but there are no tests for this subject.

The assessments

- Reading

- Paper 1: combined reading prompt and answer booklet (questions alongside text)
- Paper 2: separate reading and answer booklets

- Maths

- paper 1: arithmetic
- · paper 2: reasoning

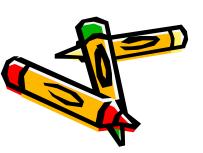

- SPaG

- spelling
- punctuation and grammar

Have a look at past papers.

Reading

- Both papers feature fiction and non-fiction texts that the children must read and then answer questions about independently.
- Paper 1 takes approximately 30 minutes to complete, but is not strictly timed
- Paper 2 takes approximately 40 minutes to complete, but is not strictly timed

Maths

- The maths task is in the form of two tests; a mental arithmetic paper and a reasoning paper.
- Children will not be allowed to use apparatus to help them in the tests.
- The arithmetic test takes around 30 minutes.
- The reasoning test will take approximately 45 minutes to complete, but it is not strictly timed.
 The paper includes a practice question and 5 aural questions.

When and how do the SATs take place?

- The tests will take place in the last two weeks of term.
- We aim to make the SATs as non-threatening as possible. They will take place in the classroom and be administered by the class teacher.
- Some children may do them in a small group or individually.

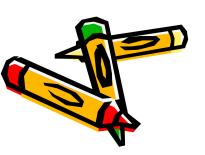

Don't Panic!

- Whilst SATs are statutory, we have been assessing your child's progress throughout the year.
- This means that the scores that your child achieves in the SATs are just one part of the assessment process.
- · Your child's final end of year levels are determined by the teacher and not the tests!

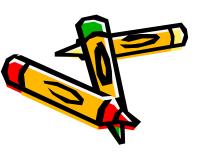

What do the SATs results mean?

The results form <u>part of the picture</u> when deciding on the teacher's assessment level. It is this <u>teacher assessment</u> (TA) that is reported to the Local Authority and that is used by the school in the future. This is also what will be reported to you.

Finally...

- Children tend not to be stressed or worried about these assessments, as they are quite used to doing similar tasks from time to time.
- What you can do:
- keep reading with your child and supporting their weekly homework/spellings as usual.
- make sure your child is always in school on time and has had breakfast.
- don't make a big deal about these assessments or try to cram in lots at home!
